

PVC PIPE EXTENDER

Allows repairman to cut and reglue schedule 40 PVC pipe at any glued plumbing joint.

A must for every repairman.

- Saves labor.
- Saves material. Permanent repair.
- Invisible when the repair is complete.
- Insignificant flow restriction. PVC construction.

Available in nine popular sizes:

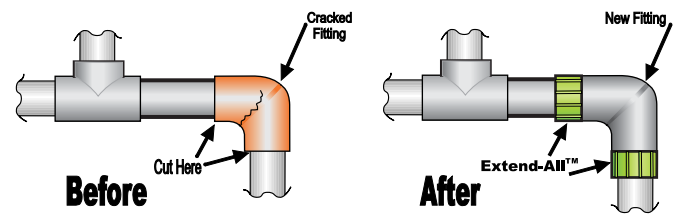

1/2"	PEX-.5
3/4"	PEX-.75
1"	PEX-1.0
1 1/4"	PEX-1.2
1 1/2"	PEX-1.5
2"	PEX-2.0
2 1/2"	PEX-2.5
3"	PEX-3.0
4"	PEX-4.0

EXTEND-ALL™ FITTING

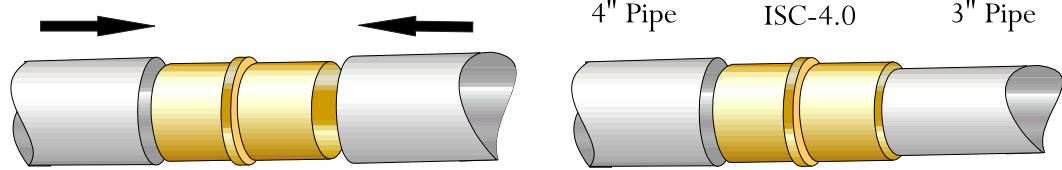

LASS ENTERPRISES, INC. the originator of the pipe extender, has developed a new repair fitting. The new fitting, called the **EXTEND-ALL™ FITTING**, is used when replacing any standard "glued in" fitting, check valve, ball valve, etc. The old item is cut out by cutting tight to the item and it is discarded. An **EXTEND-ALL™** fitting is glued into each end of the replacement item making it just long enough to be glued into the existing plumbing.

- ◆ Requires 1/2 the space of a coupling
- ◆ No Measuring - All New Pipe Sections
- ◆ Always Fits Perfectly
- ◆ No Stress on Pipe
- ◆ Set Procedure saves time
- ◆ No new pipe needed
- ◆ Compatible with all pipe schedules
- ◆ Results in neat, professional appearance

3/4"	EAL-.75
1"	EAL-1.0
1 1/2"	EAL-1.5
2"	EAL-2.0

INSIDE COUPLING

- ◆ Great in tight areas where several pipes are routed tight to each other.
- ◆ Couples schedule 40 PVC pipe inside the pipe.
- ◆ Available for 1", 1 1/2", 2", 3" and 4" for sch. 40 PVC pipe..

The ISC-4.0 and ISC-3.0 double as reducing bushings (4" to 3" for ISC-4.0, and 3" to 2" for ISC-3.0)

1"	ISC-1.0
1 1/2"	ISC-1.5
2"	ISC-2.0
3"	ISC-3.0
4"	ISC-4.0
