

MT-225 Combo Clamp & Plug Socket, 3/8" Drive

Fabricated in high-grade anodized aluminum, the nose cone of the 'rocket socket' easily slips on to the 7/16" nut on floor sweep valve control clamp bands. The four wings slip over CMP's Josam plug. A screwdriver can be used for torque in the drive hole located mid-ships. Comes with 3/8" bit.

DPW-2 Button-Hook Kit

The combination Button-Hook Drain Plug Wrench with its spin-off 3/8" Drive socket offers the combination of two great time-saving tools and a great money-saving investment.

BB-01 Blanket-Buddy

This lightweight, but tough little rake removes leaves, twigs and other debris from solar blankets and pool safety covers without tears or punctures. Attaches to any standard pool pole.

SQ-01 SQUEEGER

The SQUEEGER makes removing excess water from any drain hose quick and easy. Just slip the hose on to its axle at the pump and walk your way to an empty hose that easily rolls up and walk away with clean, dry hands.
